

Today, we went to Åland Island by Ferry at 8.50AM, the ferry was very big with 10 different decks, there was a casino, restaurants, a spa and very beautiful landscapes. There were many activities, some of us participated to a karaoke on the boat. Others even played the piano with a bar pianist.

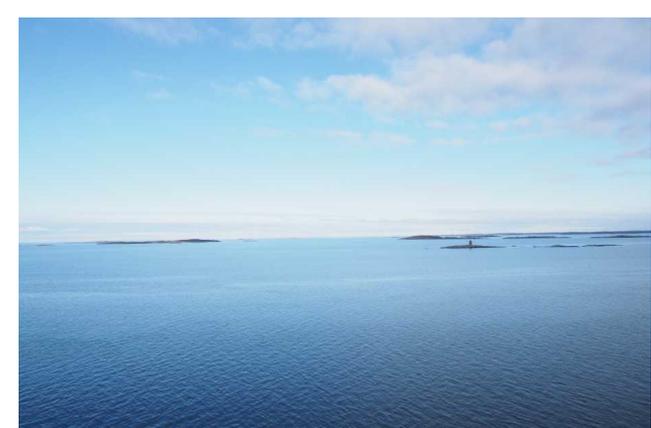

We saw many islands because this archipelago is one of the biggest in Europe with 5,000 islands and rocks. At 12.00AM we ate a very big buffet with many hot or cold dishes and many desserts, so it was much better than Zola high-school's self!

During this buffet we saw amazing landscapes while eating.

After this good lunch we arrived in Mariehamn, the capital of Åland's state which is in the biggest island in the archipelago.

Immediately after we got into a bigger ferry with many more decks and bigger shops than the first one to go back to Turku. During this trip we saw a fabulous sunset over the Åland's islands. We arrived in Turku's harbour at 7.50 PM and the host families picked us up to drive us home.
